

Aledare John Oluwaseun

Machine Learning Engineer

aledareoluwaseunjohn@gmail.com — linkedin.com/in/john-aledare — aledare.vercel.app

Experience

Centre for Applied Machine Learning and Data Science

Mar 2025 – Dec 2025

Machine Learning Engineer

- Built and deployed machine learning models for NLP and Computer Vision applications.
- Designed preprocessing and evaluation pipelines using Scikit-learn and TensorFlow.
- Deployed real-time ML inference services using FastAPI and Streamlit.

Projects

Nigerian Pidgin Next-Word Predictor

GitHub

- Designed a real-time next-word prediction system for Nigerian Pidgin using a dual-model architecture (LSTM + Trigram).
- Built a FastAPI microservice and Streamlit UI enabling live keystroke-based predictions.
- Dockerized and deployed the system on Hugging Face Spaces using custom-curated Pidgin text corpora.

AetherMatch – Semantic Movie Recommendation Engine

- Built a semantic recommendation engine using BERT embeddings and FAISS for fast vector similarity search.
- Achieved sub-50ms retrieval latency through optimized embedding indexing.
- Improved recommendation relevance with a custom guardrails filtering layer.

Brain Tumor MRI Classifier

- Developed a medical image classifier using EfficientNet transfer learning.
- Trained and evaluated the model on a 7,000+ image dataset across four tumor classes.
- Deployed a web inference tool and a mobile-optimized TensorFlow Lite model.

Skills

Programming: Python

Machine Learning: PyTorch, TensorFlow, Keras, Scikit-learn, Hugging Face

Backend & Deployment: FastAPI, Streamlit, Docker

Data & Vision: Pandas, NumPy, OpenCV

Education

University of Ilorin

Jun 2021 – Jul 2026

Bachelor of Computer Engineering

Certifications

OCI Generative AI Professional – Oracle University (2025)

Oracle Certified AI Foundations Associate – Oracle University (2025)

Machine Learning Specialization – Stanford University & DeepLearning.AI (2025)
